PARTNER ACTIVITIES VETERANS MUSEUM

The museum in Nová Bystřice is the first and largest museum of American cars in the Czech Republic. Few places are as suitable for a walk through history as an old, abandoned textile factory. The museum in Nová Bystřice offers you a journey through time, a retrospective look into the past with an effort to capture the enormous leap that this industry has made over the last hundred years. Relax in comfortable armchairs in each hall and enjoy the view of machines that once traveled such distant roads.
